***NOW Is the Time to Choose
Gems of Art Wares for Christmas Giving***

FIRST, IT SHOULD BE UNDERSTOOD—which perhaps you have not realized—that here in the Loeser Basement is assembled a collection of Art Wares that cannot be surpassed in any one store in America; that cannot be EQUALED, if both prices and worth are considered.

And NOW is the time to choose for Christmas. Every day you allow to slip by may mean a distinct loss to you and to those to whom you would give.

Why is this so? Why will not ten days later be just as well for choosing?

Simply because these beautiful Marbles and Bronzes and Carved Ivories, these rare examples of ceramic art, these masterpieces in crystal are not to be had in quantities, but in large measure are just one of a kind, selected in foreign art centers for the most part and impossible of duplication within many months if they could be duplicated at all.

If you choose NOW, you choose from a full collection, the finest collection we have ever shown. We are proud of it. We should be very pleased to have you see it as it is. And therefore we urge that you come to see it early.

Frederick Loeser & Co.

Buy HER Furs for Christmas

Ask her sister or mother or some one else who knows her taste to come with you to select the kind.

Just now we are offering a wonderful collection of Fur Coats for women—Fur Coats of the better kinds—upon which you can save surprisingly by buying them here.

The cut shows a baby caracul coat at \$695 sketched right from the coat in stock.

There are other magnificent coats, Hudson Seals at \$450 to \$695 that we would call particular attention to as they are highly favored this year and extremely becoming to every woman.

The Magnificent Weber Piano of To-day

TO purchase any high-grade piano without hearing the Weber, is to ignore the march of progress and the recent achievements of the most notable staff of musical instrument experts in the world.

The Weber Grand

with its new action, realizes to-day a piano ideal which five years ago seemed to be beyond expectation.

The Weber Upright

possesses a tonal magnificence but a shade below that of the Grand. Its lower registers in particular

have a majesty and sonorous beauty that are almost organ-like.

FOR half a century builders of high-grade pianos have striven to produce an action in which the blow, or sense of impact, should be minimized, and a tone that should have a certain subtle combination of brilliancy with velvety smoothness—a singing quality akin to the human voice.

THERE are no words which can really describe either this action or this tone quality, but when you play a piano that has them, it will be something WHICH YOU CAN NEVER FORGET. Any day you choose you may have this experience at Aeolian Hall, the home of the Weber Piano.

OUTER APPAREL, MILLINERY, FURS
FOR WOMEN, MISSES AND JUNIORS

The aim of this establishment:

To present the most exclusive Fashions of the distinguished *style-origimators* of Paris, *while these modes are the vogue abroad.*

Also, to create styles which have for their *motif* the *Paris modes of the moment*, but are better adapted to the more conservative ideas of many American women.

The result is most gratifying to women of fastidious tastes—they find in this perfectly appointed “Store de luxe” an unapproached selection of the very things that the smart Parisienne is wearing this season, together with equally charming modifications of those ultra-fashionable modes—*all at sensible prices!*

We invite the most critical inspection of our new models, as well as the broadest possible comparison of our values.

Heavier Silks More Popular

Bengaline, double-faced satin, wool-back satin, crêpe faille sublime, satin venise and crêpe de chine will probably enjoy an increasing popularity for months to come.

This seeming preference for heavier fabrics does not, however, appreciably affect the great favor which marquissette, silk voile and similar light silks enjoy, as the new styles are admirably adapted to both weights of silk.

CHENEY SILKS

are so diversified that they offer a quality to meet every demand. All dress silks are included in the Cheney line—each silk the finest of its kind—and the trade knows that Cheney Silks are invariably dependable.

Cheney Silks include "Shower-Proof" Foulards, Florentines, Decorative Silks, Upholstery Goods, Velours, Velvets, Ribbons, Cravats, Velvet Ribbons, Spun Silk Yarns, Reeled Silks, etc.

ORIENTAL RUGS Of Genuine Worth

THERE is such a considerable difference in the qualities of Oriental Rugs that our guaranty of genuine character and our method of acquiring these weaves are of the utmost importance to purchasers.

Our own experts in the Far East, thoroughly qualified by years of experience in securing fine specimens, select all our Orientals—and base their selection upon the individual excellence of the texture, coloring and pattern of each Rug. As a consequence, no other exhibit of Oriental Rugs contains such a wealth of beauty as may be seen here. Likewise, our values will stand any fair comparison.

Those knobs will stop your skidding

Study this *Nobby Tread* construction carefully.

You see, the knobs are big, tough, rubber blocks whose thickness is in addition to the thickness of the regular tread—practically two treads placed one on top of the other.

Each row of knobs is set diagonally to the rows before and behind it so that the knobs grip the slipperiest road or asphalt in every direction and from every angle. Side slips or drive slips are made equally impossible.

Miles of driving in snow or mud can't fill up the spaces of the Nobby Tread. The peculiar shape of the knobs combined with the width of the intervening spaces absolutely prevents this. That's why Nobby Treads hold like a vise under road conditions that render ordinary "criss-cross" non-skid Treads of little or no avail.

For safety's sake use *Nobby Treads*. They are

STEINWAY

THE Steinway name has not only become a household word in every hamlet of the United States, but its fame has circled the world. From the royal palaces of the ruling sovereigns of the old world to the modest cabins of the farmers and miners of the new world, wherever the taste and longing for the purest and finest musical tone exists, there rings the voice of the Steinway.

The investment, by the public, of over one hundred and twenty million dollars in a hundred and fifty thousand Steinway pianos speaks louder than words of fulsome praise.
